

Your name: \_\_\_\_\_

Welcome! We are pleased to announce a new piece of equipment that can help the doctor see and detect early signs of:

- Macular Degeneration**
- Glaucoma**
- Diabetes**
- Hypertension (High Blood Pressure)**
- Heart Disease**
- Many other Retinal Problems**

This is performed with a **Retinal Camera**, which is a picture inside of your eyes! Your vision insurance does NOT cover this screener, but you may elect to purchase this outstanding test for **only a co pay of \$19**. (Usual cost of this test is \$80)

If you would like to have this test performed, please check the appropriate line:

\_\_\_\_\_ Yes I would like the test for an additional \$19

\_\_\_\_\_ No I decline this test

**Dilation** (drops to enlarge the pupil opening) is an additional procedure that is **included** in the cost of routine examination. If you have purchased our In-house Insurance this procedure is an additional \$10. Please select from following:

\_\_\_\_\_ Yes I prefer to be dilated today.

\_\_\_\_\_ No I would like to re-schedule for another day. When? \_\_\_\_\_

\_\_\_\_\_ No I decline dilation

\_\_\_\_\_ Up to Doctor Porter

Dilation is highly recommended as part of your routine examination, especially for those who have Diabetes, High Blood Pressure, Risk of Glaucoma, Cataracts, and or family history of any eye disorders.
